

COMMONWEALTH
PACKAGING COMPANY

RETAIL & HOSPITALITY REOPENING TOOLKIT

RESOURCES TO HELP YOU REOPEN SAFELY

WE'RE HERE TO HELP

As areas around the US prepare to reopen, retailers will likely need to take precautions to help ensure customer safety.

Commonwealth Packaging has the resources to help you protect your customers, but with a more refined touch.

This kit includes several recommended items to help protect your customers and staff. We've included price guidance, but as always, we can customize to meet your specific needs.

A SELECTION OF ITEMS WE CAN OFFER:

- Facemasks
- Hand sanitizer
- Disposable pen sleeves
- Disposable mask storage
- Anti-microbial (and sustainable!) totes
- Protective receipt folders
- Gloves (both disposable and cotton)
- UV decontamination bag
- Food-safe hard surface sanitizer

Our hallmark is our creativity and customer service. If there's something you need not listed above, we're happy to find it for you!

FACEMASKS

We can quickly provide stock disposable facemasks, often available within just a few days

Or for a more sustainable and brand-conscious option, we can create a custom branded and reusable cloth mask

NON-STERILE DISPOSABLE FACEMASK

- 3000 case-pack
- MOQ 12000 pieces
- Est. lead time: 2-3 weeks
- Additional styles available (ex: KN95, face shields)

CUSTOMIZED FABRIC MASK

- Pricing FOB China Factory, including duty/tariff (freight to be determined)
- Est. lead time: 4-6 weeks + freight
- Cotton jersey material in stock color, including 2 color print up to 25% coverage

HAND SANITIZER

Available in multiple sizes, we'll
add your logo or other brand
message to customize

ALCOHOL-BASED HAND SANITIZER

16.9oz Pump Bottle

4.25oz Travel Bottle

Contact CPC for details

sanitary mask storage. Ideal for
restaurant or home use

POLYPROPYLENE MASK SLEEVE

- MOQ: 6K pieces (6 x 1000/case)
- Clear unprinted sleeve
- Manufacturer Lead time: est. 2-4 weeks

ANTI-MICROBIAL RPET TOTE BAG

Eco-friendly, germ un-friendly

RPET TOTE BAG + ANTI-MICROBIAL COATING

RPET is a synthetic material made typically from recycled plastic bottles and other waste. Durable and versatile, we've used RPET for everything from totes to shippable garment bags. We can even print complex patterns to customize the look (ex: Nuuly).

Already eco-friendly, adding an anti-microbial coating makes the bag health-friendly too.

Let us know if you're interested and we can develop the right solution for you.

PROTECTIVE RECEIPT FOLDER

An old standby takes on new importance by providing an added layer of insulation for your customers and employees

PAPER RECEIPT FOLDER

Receipt sleeves are nothing new. But they can serve a new purpose in store by limiting contact between a salesperson and the customer.

The salesperson can use the receipt folder to grasp the receipt after it's printed. The customer can then pull the receipt directly from the folder - eliminating another point of physical contact.

LIGHT WEIGHT HANDLING GLOVES

Available either as disposable
unbranded, or lightweight cotton
with custom branding

HANDLING GLOVES

DISPOSABLE UNBRANDED

- Nitrile disposable gloves
- MOQ and lead time TBD

LIGHT WEIGHT COTTON BRANDED

- Lightweight cotton gloves
- Available in white + stock colors
- Includes 1 color logo print, 1 side
- Priced per pair
- MOQ and pricing to be determined

UV-C DECONTAMINATION BAG

UV-C light has been shown to kill
germs and viruses with relatively
minimal exposure

UV-C light has long been known to be an effective decontamination tool, killing germs and viruses with relatively short exposure. According to Science Daily, COVID-19 can be killed with exposure of about 30 seconds.

The bag below has UV-C light emitters built into the lid, helping to kill harmful pathogens in seconds. Powered by a simple USB plug, this bag is a convenient way to help customers and staff feel safer.

These images are for reference only, the bag can be customized to your specifications.

HARD SURFACE SANITIZER

Food-safe sanitizer that kills COVID,
NOROVIRUS, and other pathogens in
60 seconds

Pure Hard Surface's patented formula is approved for use in a wide range of applications. It's food safe, meaning it can be sprayed directly on surfaces that contact food without the surface needing to be wiped first.

Sanitizing effect can last up to 24 hours from application.
